Dear Sponsor,

Summer is in full swing here at Camp Chetek! The Lord has brought us a great group of young people to serve alongside of us this camp season. We are eagerly anticipating your arrival for a great week of camp!

In preparation for camp this summer, it would be advisable to have all of your campers checked for nits (lice eggs) and lice before they come for their week of camp. As you can imagine, lice will spread quickly in a camp environment. The camp nursing staff will conduct a lice check at the beginning of registration on all campers. Camp Chetek's policy is that campers with nits (lice eggs) or lice will be sent home immediately. Even if the camper was "just treated," the NIX shampoo kills only the live bugs. The eggs will still hatch and pose the same problem. Sponsors will be responsible to get their campers home.

Thank you so much for your cooperation in this matter. We look forward to having you here at Camp Chetek!

If you have any questions regarding this matter, please don't hesitate to contact our Camp Chetek Nursing Staff or Pastor Randy.

Sincerely,

Camp Chetek Nursing Staff
